Q. No.	Answer all the questions	Marks	CO Mapping	BT Level
1.	WAP in C to implement IPC using Signal, where the parent process will create a child process. The parent will send a signal to the child after every 10 seconds. Upon receiving the signal, the child will take a string as input and print it in the aLtErNaTe case and will pause. This will continue until a keyboard interrupt occurs from the user.	10	CO2, CO3, CO4	Apply
